## Profile Summary

---

Associate Developer with 4 months of experience at Pitasys Software, contributing to full-stack web application development. Skilled in building responsive user interfaces, developing secure RESTful APIs, and implementing user authentication. Proven ability to work in a fast-paced startup environment with cross-functional teams. Previously completed internships at WebStack Academy and NullClass, enhancing practical knowledge in real-world projects and agile development workflows.

## Experience

---

**Pitasys Software Pvt.Ltd** ( Associate Developer ) Feb 2025 – Current

- Contributed to the full-stack development of a comprehensive IVF management system, actively working across key modules including **Hospital**, **Patient**, and **Cycle Navigator**.
- Collaborated with cross-functional teams to implement core functionalities such as patient onboarding, hospital profile setup, and medical record tracking.
- Took ownership of the entire **Cycle Navigator module**, leading the design and development of the features to track treatment cycles, schedule appointments, and manage cycle progress.
- Ensured smooth integration between front-end components and back-end APIs, maintaining data consistency and user-friendly workflows.
- Participated in sprint meetings to review progress, discuss new requirements, and optimize existing implementations based on feedback.

**Intern at Webstack Academy** ( Intern ) Jul 2024 – Aug 2024

- Developed a **Food Ordering Web App** using the MERN stack.

**NullClass** ( Intern ) Oct 2024 – Nov 2024

- Worked on the **Internshala** Clone Application

## Education
